News

Free Advice - I am happy to provide FREE impartial advice on all aspects of buying a new PC, such as which computer is best for me, which broadband package should I choose, simply email me with any questions

Illegal Downloads - An agreement was reached today between the six major internet providers and the BPI concerning illegal downloading of music and videos via p2p software such as LimeWire and torrent websites

The six ISP's namely BT, Virgin, Orange, Tiscali, Sky and TalkTalk will monitor what customers are downloading and if they are deemed to be downloading illegal content they will first of all be warned and then if they continue downloading the internet service could be reduced or terminated

It is rumoured that the BPI may then consider taking legal action against the offenders or the ISP's may impose charges to cover the cost of the illegal content downloaded

So make sure you know what you and your children are downloading from the internet!!!

Memory Upgrades

Lengthen the life of your existing PC by upgrading the memory, many older PC's came with too little memory (RAM) to run properly, upgrading this will give your PC a new lease of life and in these times of financial uncertainty be a lot more cost effective than replacing your PC

Click the link below for more details and the recommended amounts of memory your computer should have
